SUPPLEMENTARY INFORMATION: Antelope holds 48-State authority (MC-125057) to transport passengers in special and charter operations.² Desert holds authority (MC-140919 Sub 1) to transport passengers in charter or special operations, beginning and ending in Riverside and San Bernardino Counties, CA, and extending to points in Arizona, Nevada, New Mexico, and Utah.

Applicants state that their aggregate gross operating revenues, for the 12-month period that ended on December 31, 1995, exceeded \$2,000,000. They assert that the proposed transaction will preserve motor service because Antelope's financial resources are adequate to ensure that Desert will continue to operate when its owner retires. Additionally, they assert that the transaction's fixed charges will be nominal, that there will be no need to reduce service or increase rates, and that all of Desert's employees will be retained with increased pay and improved benefits.

Applicants certify that: (1) both Antelope and Desert hold satisfactory safety ratings; (2) Antelope maintains sufficient liability insurance to meet the established fitness requirements and is neither domiciled in Mexico nor owned or controlled by persons of that country; and (3) approval of the transaction will not significantly affect either the quality of the human environment or the conservation of energy resources. Additional information may be obtained from applicants' representative.

Under 49 U.S.C. 14303(b), we must approve and authorize a transaction we find consistent with the public interest, taking into consideration at least: (1)

The effect of the transaction on the adequacy of transportation to the public; (2) the total fixed charges that result; and (3) the interest of affected carrier employees.

We find, that the proposed acquisition of control is consistent with the public interest and that it should be authorized. If any opposing comments are timely filed, this finding will be deemed as having been vacated and a procedural schedule will be adopted to reconsider the application. If no opposing comments are filed by the expiration of the comment period, this decision will take effect automatically and will be the final Board action.

This decision will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. The proposed acquisition of control is approved and authorized, subject to the filing of opposing comments.

2. If timely opposing comments are filed, the findings made in this decision will be deemed as having been vacated.

3. This decision will be effective on November 18, 1996, unless timely opposing comments are filed.

Decided: September 23, 1996.

By the Board, Chairman Morgan, Vice Chairman Simmons, and Commissioner Owen.

Vernon A. Williams,

Secretary.
